

## COMMUNICATIONS

### ISSUES

There was some concern expressed that communication and the flow of information within the village was inadequate and some villagers felt uninformed and marginalised.

A high proportion of households in Christian Malford have internet access – a village website offers a medium for passing a high volume of information quickly and effectively.

### VISION

To improve communications within Christian Malford to ensure that the whole community is informed of the events and opportunities on offer and is empowered to participate more fully in village life. Proactively encourage the involvement of those who feel marginalised.

### ACTIONS

- ◆ Improve Village Notice Boards
- ◆ Retain the monthly Parish News
- ◆ Continue to contribute weekly to the 'Village & Community News' in the Gazette & Herald.
- ◆ Set up a Village Website.
- ◆ Improve the 'Welcome Pack' distributed to all new families moving into the Village [The PCC currently visit all new families with a small gift funded by local businesses and a leaflet with useful contacts]

### UPDATE

On 30 Sep 2004, the Village Website [www.christianmalford.org.uk] was set up under the auspices of the Parish Council which jointly funded the Project with the Village Plan Steering Group.
